Dear Michelle:

I am writing in support of your proposed amendment to the Ordinances of the County of Orange regarding the restraint of dogs, which would provide the authority for the Board of Supervisors to designate "off-leash" areas for pet dogs.

It is clear from public comments to the Newport Beach Parks Beaches and Recreation Commission that the public supports the continued use of the small strip of county beach between Newport Beach and Huntington Beach for this purpose.

I would like to personally commend you and your staff for your leadership on this issue. I believe your proposal will best address the desires and preferences of those engaged in this issue. I encourage you and your colleagues to approve this change.

Best wishes,
